I understand that recommendations for treatment and referrals will be developed for and will become a part of my file. I understand that I have the right to refuse any or all parts of the recommendations for treatment except for emergency treatment designed to protect the health and safety of myself and others. Before these recommendations for treatment are put into effect, I understand that I have a right to be informed as to the nature and consequences of the recommendations for treatment, the reasonable risks, benefits and purposes of the recommendations, and any alternative recommendations for treatment available to me. The confidentiality of alcohol and drug abuse patient records maintained by this program is protected by Federal Law Regulations. Violation of the Federal Law and regulations by a program is a crime. Suspected violations may be reported to appropriate authorities in accordance with the Federal regulations. Federal law and regulations do not protect information about a crime committed by a patient either at the program or against any person who works for the program or about any threat to commit such a crime.

FEDERAL LAWS AND REGULATIONS DO NOT PROTECT ANY INFORMATION ABOUT SUSPECTED CHILD ABUSE OR NEGLECT FROM BEING REPORTED UNDER STATE LAW OR APPROPRIATE STATE OR LOCAL AUTHORITIES. THREATS OF SUICIDE OR BODILY HARM TO OTHERS WILL ALSO BE REPORTED. THESE ARE NOT PROTECTED UNDER THE FEDERAL LAW.

**Substance Abuse Prevention and Treatment Agency**  
**Sliding Fee Scale**  
**Policy Statement**  
**July 1, 2010**

The purpose of the Substance Abuse Prevention and Treatment Agency (SAPTA) funding of services for abuse of alcohol and other drugs is to ensure that such services are made available to all Nevadans independent of the person's ability to pay. Accordingly, a person may not be denied access to SAPTA-funded services for abuse of alcohol and other drugs due to his or her ability to pay for the service.

Assessment of fees according to a sliding schedule of fees does not, in itself, ensure access to services due to ability to pay because the client may lack the funds to pay even reduced fees. In these cases, no co-pay percentage will be collected.

Any practice which established a fiscal barrier to client access to SAPTA-funded services can result in SAPTA withholding or terminating all or part of the funding to the program operator. Examples of such practices are:

1. Requiring an administrative processing fee be paid prior to access to SAPTA-funded services;
2. Requiring an assessment or evaluation fee to be paid prior to access to SAPTA-funded services;
3. Requiring that a deposit be made towards the anticipated bill prior to access to SAPTA-funded services;
4. Requiring that the person pay his or her fee prior to access to SAPTA-funded services.
5. Termination of services due to failure to pay in a manner other than that specified by SAPTA concerning individuals who are able to pay, but refuse to do so.
6. Failing to inform persons inquiring about availability of services that funded by SAPTA are available independent of ability to pay; and cannot base client's ability to pay on future earnings.
7. Denial of services due to client's ability to pay for additional services or materials which are not funded by SAPTA. For example, if the program design is such that access to SAPTA-funded Level II services requires co-enrollment in un-funded Transitional Housing provided by the program operator, the program operator must make the Transitional Housing service also available independent of client ability to pay. To do otherwise result in tacit denial of access to SAPTA-funded Level II services due to ability to pay.

The foregoing are independent of the client's referral source and independent of whether the client has stated motivation to enter treatment subsequent to assessment. This has important implications for forensic clients:

- If a client is seeking assessment solely for the purpose of obtaining a report to a court, the client is still to be provided assessment independent of his or her ability to pay. However, the program may unbundle the report on the findings of the assessment from the assessment itself. The client then is provided assessment independent of ability to pay, but any report to a court on the findings of the assessment is a separately billed service. The program then may choose to prepare and send a report to the court only after the client has paid the program a reasonable fee for doing so. If the program chooses to unbundle court reports as a separately billed service, it is incumbent upon the program to inform the client of this prior to the assessment being conducted.
- If a client is court-ordered to treatment, or is in treatment as a condition of parole, reports to verify client participation in, or completion of, treatment, may not be unbundled as a separately-billed service. Client being provided SAPTA subsidized treatment independent of ability to pay must also be provided reports of participation or completion also independent of ability to pay. Such reports or certificates of completion of treatment may not be withheld due to ability to pay.

he household. Multiply this percentage by SAPTA unit rate to determine client co-pay.

As a client of a treatment program receiving funds administered by the Nevada Substance Abuse Prevention and Treatment Agency (SAPTA), you have the right to a determination of fees according to a sliding fee scale that takes into account income and family size. Reduction of your fees according to this scale is contingent upon your providing verifying information. Such documentation should be provided at the intake session at which your share of costs is determined. Indigent clients, including those who are non-citizens and/or homeless may not be able to provide any of the documentation requested below. If you can provide a letter from any other agency, local service provider verifying your status, you will be assessed fees based on \$0 income for the provision of services. No food, gum, or drinks are allowed in the building with the exception of water in a clear plastic bottle. If you are observed eating in the building you will get a missed group and be asked to stay.

Please do not leave trash anywhere in the building, outside of the building or on our neighbor's property, use trash cans and trash dumpster.

Dress appropriately every time you enter the building; this includes groups, individual sessions or if you are here to test. Shirts must have sleeves. You may smoke in the back alley before and after your scheduled group, behind CCC building as you are not allowed to leave the building during group or break; you will see a cigarette receptacle.

No loitering on or around our neighbors property i.e. bank parking lot, in front of residents homes or in front of CCC building. If you are waiting for group please wait in the back alley of the CCC building.

Confidentiality: who you see here and what is said here will not be repeated outside of treatment, including individuals in other groups, or private sessions. Please be careful to remember that people may not wish to be addressed/acknowledged by you outside of treatment as it would break their confidentiality. Breaking confidentiality compromises that person's treatment as he/she can no longer trust in the group and receive proper therapy as a result.

You may be discharged or asked to meet with your individual counselor if you have two unexcused absences within the entire treatment period. These absences include groups and individual sessions. Lack of payment is not an excused absence.

If you are going to be missing group, please notify your counselor as to why ahead of time. If you want to be excused from group for being sick, you must either have a complete doctor's note or hospital discharge form validating the group time missed or you must show up to group and be sent home sick by your counselor.

Do not use any alcohol or drugs including prescription narcotics, sedatives, hypnotics, etc. while in treatment. Inform staff of all medications you are taking and get approval for any over the counter medications you intend to take. This is an abstinence only treatment program and you may be inappropriate for treatment here if you are on any mood-altering substance even with a doctor's prescription. A counselor may request a UA sample at any time to ensure that you are remaining substance free. If you are prescribed medication obtain approval from your Counselor PRIOR to taking it. You may only take what is on the approved medication list.

The violation of any of these rules will result in a missed group. Continued violation of these rules may lead to an unsuccessful discharge from treatment with a letter to your source of referral.
